About US

Being associated with the construction profession, I always had a desire to establish a construction company strong enough to curb many of the prevalent ill practices such as time and cost overruns, quality lapses and other malpractices associated with the profession.

With these objectives, the formation of Alshammari trading and contracting company came into being. Simultaneously there was a desperate desire to get a space in the market with recognition and admiration on the basis of performance alone. As a company that is re-writing the future through construction, providing fast-track services alongside operating sustainability is central to our mission. Timely completion has always been a dream for the clients in general and in this fast-paced world we ensured that our dedicated and untiring team of workers and staff have the skills to innovate and meet our clients' needs. Almighty helped us and very soon the committed hard work started paying off with Alshammari completing numerous projects either on-time or even earlier.

I am thankful to my staff and workers and hereby acknowledge their hard work. I also take this opportunity to pledge that I and the Alshammari team will endeavor to devote our full efforts to exceed our clients' expectations and ultimately impact Saudi Arabia economy in positive, meaningful ways.

Introduction

Our Code of Conduct Speaks to the best of who we are and is integral to our continuing efforts to built the character of our workforce and our company in additions , we take pride In building quality projects and value for our customers as well as rewarding careers for our employees.

Through our extensive leaders. They in turn have built strong partnerships with a host of suppliers, subcontractors , banks and insurance companies . The foundation for all these relationship is mutual trust and respect earned from many years of adherence to our code of conduct.

As experience and innovator contractor we serve the needs of the people/and are happy to be a part of building a better Saudi Arabia Administration

Teams of engineers , estimators, financial legal, human resource. It professionals, general accounting and treasury and risk management to contracts are co - located at our corporate headquarters in Jeddah , Saudi Arabia . They provide support for our widely dispersed field operations through the kingdom.

MISSION

Our mission is to provide our employees with an honest and helpful working environment, where every employee individually and collectively, can dedicate themselves to providing our customers with exceptional workmanship, extraordinary service, and professional integrity. Our commitment to this mission will allow Alshammarigroup to become not only a premier construction company, but the premier construction company in Saudia Arabia.

VISION

Our vision is to be the world's pre-eminent designer/builder of unique, architectural memorial structures.

MOTTO

Do the right thing. These simple words say everything about a career at Alshammarigroup. They go right to the heart of the company's passion for excellence and continual improvement. They give our employees a benchmark when a standard is difficult to define.
